Engineering, Estimating, Project Management, Project Superintendent

POSITION

Project Structure Superintendent

LOCATION

New Enterprise, PA

DESCRIPTION

An immediate opening exists for a Project Structure Superintendent in the Contract Division of New Enterprise Stone & Lime Co., Inc. This position is primarily responsible for completing project-specific bridge construction work safely and at an optimal profit level. This includes directing all structure work and making resource allocation decisions based on project schedules and needs, including management of all project structure personnel. This position will work closely with our project management team to insure compliance with project schedules and budget.

Qualified individuals will have a minimum of five years' experience in heavy highway bridge construction, including significant front-line foreperson responsibilities, demonstrated competency in reading project plans, rough carpentry, cranes and crane charts, bridge deck finishing equipment, and traffic management and control. Qualified individual must also have a thorough knowledge of OSHA construction safety practices, as well as excellent mathematical and communication skills. New Enterprise Stone & Lime Co., Inc. offers competitive wages and excellent benefits package.
