-Product Specifications-

DIAMOND-GRO™ COMPOST

Diamond-Gro™ Compost is produced specifically for utilization as a turf topdressing and as a component in the construction of root zones. This product is ideally suited for incorporation into native soil for the purpose of increasing organic matter and beneficial microbial populations in the root zone, thereby improving soil quality and turfgrass establishment and growth.

Diamond-Gro™ Compost is a thoroughly composted, stable, mature and weed-free organic product. Material is derived from organic sources including horse and dairy manure, wood shavings, sawdust livestock bedding, straw, hay, and other agricultural components. Diamond-Gro™ Compost contains no municipal solid waste, biosolids, or spent mushroom soil. The product contains no substances toxic to plants.

Appearance, Size & Color

Color:	Brown to very deep brown
Maximum particle size:	100% pass through a 3/8" screen
Odor:	"Earthy"

Physical Properties

Moisture content:	30%-55%
Organic matter:	>40% (dry weight basis)
Ash content:	<60%

Chemical Properties

C/N ratio:	25:1
Nitrogen:	0.5% - 3.0%
Phosphorus:	>0.2%
Potassium:	>0.2%
pH:	6.5 to 8.5
Soluble salts:	<4.0 dS (mmhos/cm)
